RE-CL-2020-02

Notice of a re-profiling of payments relating to existing research funding

Dear Vice-Chancellor or Principal

1. Research England has reviewed the profile of payments of QR (excluding GCRF) to institutions across the months of the academic year 2019-20.
2. We will be adjusting the profile by bringing forward some payments that had been scheduled for April 2020 into March 2020.
3. The re-profiling of payments does not affect the total research allocation announced for the institution for the academic year 2019-20 listed in Annex A of the publication RE-P-2019-05 'Research and knowledge exchange funding for 2019-20: Recurrent grants and formula capital allocations' (<https://re.ukri.org/sector-guidance/publications/research-and-knowledge-exchange-funding-for-2019-20/>); only the timing of payments is affected.

Yours sincerely

David Sweeney
Executive Chair
